Mahnoor Iqbal

Data analyst: SQL, dbt, BI dashboards and forecasting

Karachi, Pakistan (UTC+5) - 5 years freelancing - SYNTHETIC PERSONA (GigBid assignment)

Summary

I turn messy operational data into models people trust: clean SQL, tested dbt pipelines, dashboards with one number per question, and forecasts with honest error bars.

Skills

Airflow, BigQuery, DAX, Fivetran, GA4, GeoPandas, Google Sheets, Google Sheets API, Jupyter, Looker Studio, MS Excel, Metabase, Mixpanel, Power BI, Power Pivot, Power Query, Prophet, Python, QGIS, SQL, SQL Server, Segment, Snowflake, Tableau, dbt, pandas, pg, scikit-learn, statsmodels

Selected experience

- 2025 - FreshCart (E-commerce): pricing analytics with Python/statsmodels/SQL; recommended price changes lifted gross margin 1.8 points in the test categories.
- 2025 - RouteMate (Logistics): data warehouse with BigQuery/dbt/Python; retired 40 spreadsheets.
- 2025 - Teamboard (SaaS): product analytics with Mixpanel/SQL/Python; found an onboarding step losing 38% of trials.
- 2025 - Shan Distributors (FMCG): dashboards with Power BI/SQL Server/DAX; reporting lag from 7 days to 1 day.
- 2025 - Mindstorm Studios (Gaming): experimentation with Python/SQL/BigQuery; test duration cut by about 30% with CUPED.
- 2025 - Formflow (SaaS): analytics engineering with dbt/Snowflake/SQL; one certified revenue metric replaced 9 conflicting queries.
- 2025 - Chase Up Retail (Retail): geospatial with Python/GeoPandas/QGIS; ranked 120 candidate sites.
- 2025 - Outfitters Online (Retail): marketing analytics with GA4/BigQuery/SQL; shifted 20% of spend from branded search to prospecting.
- 2024 - NayaPay Labs (FinTech): financial modeling with MS Excel/Google Sheets/SQL; board pack preparation from 4 days to half a day.
- 2024 - Snackbox (E-commerce): churn analysis with Python/pandas/SQL; identified a discount channel with 2x churn, which was paused.
- 2024 - Insight Pakistan (Market Research): survey analysis with Python/pandas/scikit-learn; five segments adopted in the client's brand strategy.
- 2024 - CarePlus Pharmacy (Healthcare): forecasting with Python/Prophet/SQL; stock-outs on top 200 SKUs down 35%.
- 2024 - Bykea Partners (Transport): operations analytics with Tableau/pg/SQL; average rider wait time down 18%.
- 2024 - Akhuwat Finance (Banking): risk analytics with SQL/Power BI/Python; PAR reporting from monthly to daily.
- 2023 - PriceWatch.pk (E-commerce): data pipelines with Python/Airflow/pg; coverage from 50 to 8,000 products.
- 2023 - TeleConnect BPO (HR): people analytics with Power BI/MS Excel/SQL; identified two team leads driving a third of exits.
- 2023 - Dawn Digital (Media): reporting automation with Python/SQL/Google Sheets API; saved about 5 hours of analyst time a week.
- 2023 - Faisal Textiles (Manufacturing): inventory analytics with MS Excel/Power Query/Power Pivot; dead stock identified worth about PKR 18M.

Education

BS Economics & Mathematics, LUMS (2020)
