Bilal Chaudhry

Full-stack developer: TypeScript, React/Next.js, Node and Django

Islamabad, Pakistan (UTC+5) - 7 years freelancing - SYNTHETIC PERSONA (GigBid assignment)

Summary

I ship web products end to end: typed frontends, APIs that do not fall over, payments, auth and the CI/CD that lets a two-person team deploy on a Friday.

Skills

AWS, AWS ECS, Apollo Server, Auth.js, Celery, Chrome Extensions, D3.js, Django, Django REST Framework, Docker, Express, FastAPI, Firebase, GitHub Actions, IndexedDB, Laravel, MongoDB, MySQL, NestJS, NextJS, NodeJS, OpenAI, PHP, Playwright, Prisma, Python, React, React Native, Redis, Sanity, Shopify Storefront API, Socket.IO, Stripe, Stripe Connect, Supabase, Tailwind CSS, Terraform, Vercel, axe-core, pg, pgvector, typed JavaScript

Selected experience

- 2025 - Docstack (SaaS): AI integration with typed JavaScript/NextJS/OpenAI; support tickets down 29%.
- 2025 - Teamboard (SaaS): authentication with typed JavaScript/NextJS/Auth.js; closed two enterprise deals blocked on SSO.
- 2025 - RouteMate (Logistics): multi-tenancy with typed JavaScript/NextJS/NodeJS; new customer onboarding from 5 days to 20 minutes.
- 2025 - Formflow (SaaS): DevOps with Docker/GitHub Actions/Terraform; deploy time from 45 minutes to 8 minutes.
- 2025 - Learnly (EdTech): payments with typed JavaScript/React/NodeJS; involuntary churn down 23% after dunning.
- 2025 - SadaPay Partners (FinTech): admin tools with typed JavaScript/React/NestJS; direct production database access removed for 40 staff.
- 2025 - Pipelyne (Sales Tech): browser extension with typed JavaScript/Chrome Extensions/React; 1,200 weekly active users after launch.
- 2024 - Khaana Now (Food Delivery): real-time with typed JavaScript/React Native/NodeJS; 'where is my order' calls down 46%.
- 2024 - BuildSafe (Construction): PWA with typed JavaScript/React/IndexedDB; lost inspection reports dropped to zero.
- 2024 - Zari Studio (E-commerce): headless commerce with typed JavaScript/NextJS/Shopify Storefront API; mobile Lighthouse score from 31 to 94.
- 2024 - Punjab e-Services (Government): accessibility with React/typed JavaScript/axe-core; audit issues from 212 to 6.
- 2024 - ShifaCare (Healthcare): REST API with Python/Django/Django REST Framework; no-show rate from 30% to 12%.
- 2024 - Safarnama (Travel): GraphQL with typed JavaScript/Apollo Server/NodeJS; booking screen load time from 3.8 s to 1.1 s.
- 2024 - KhetiTech (Agriculture): dashboards with React/typed JavaScript/D3.js; weekly reporting time from 6 hours to 30 minutes.
- 2023 - Roshan Foundation (Non-profit): CMS with NextJS/Sanity/Tailwind CSS; content edits by non-developers went from 0 to about 30 a month.
- 2023 - FixIt.pk (Home Services): marketplace with Python/Django/React; launched with 180 providers in two cities.
- 2023 - GharKaSaman (E-commerce): performance with PHP/Laravel/MySQL; checkout time from 12 s to 1.6 s.

- 2023 - PulseFit (Fitness): mobile app with React Native/typed JavaScript/Firebase; 4,000 downloads in the first two months.

Education

BS Software Engineering, NUST (2018)
